Throughout high school, students have experienced success and faced obstacles in and out of the classroom. However, with teachers, families, and friends, they manage to persevere and continue to the next stage in their lives. As Malcolm X once said, "Education is the passport to the future, for tomorrow belongs to those who prepare for it today." After four years of hard work, the class of 2014 leaves Tennenbaum Tech behind and move forward to a life of new opportunities and experiences. Even so, always remember the people who have helped shape you as a person. Congratulations on reaching this finish line!

Paint War

The Tradition Begins!

On April 4, 2014, seniors took the field and began an epic tradition. Paint filled balloons flew as students ran through the field, bonded as a class, and had fun! Though it took longer showers and soiled clothes to put on this event, it was worth it to end high school with an unforgettable bang!

"If we don't end war, war will end us."

English Department

Why English is Hard to Learn:

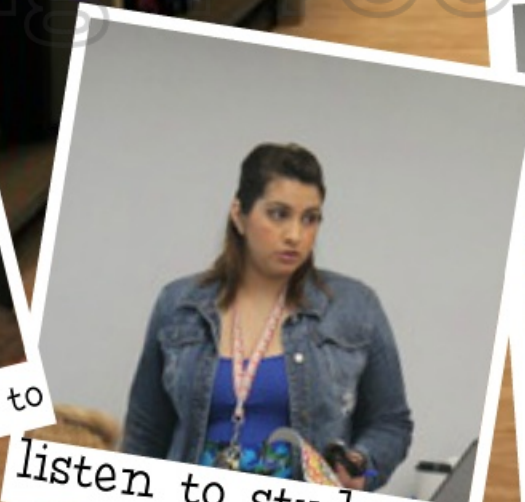

Begin with box: the plural is boxes, but the plural of ox is oxen, not oxes. One is a goose, and two are called geese, yet the plural of moose is never meese. Find a lonely mouse, or a house full of mice, but the plural of house is houses, not hice. The plural of man is always men, but the plural of pan is never pen! The English teachers at Tenn Tech help us solve these kinds of problems everyday.

This year at Tenn Tech, students have read classics such as The Great Gatsby, Lord of the Flies and Of Mice & Men, and original books such as Their Eyes Were Watching God and Speak.

Great teachers are able to

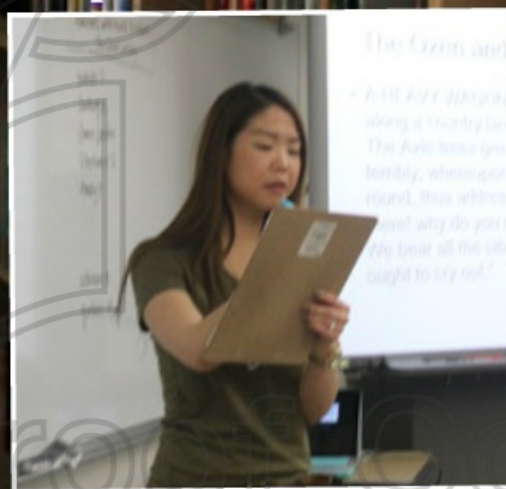

listen to students

and help out when needed.

Ms. Song, Mrs. Morales, and Ms. Brown deliver their lectures thoroughly and answer students' questions.

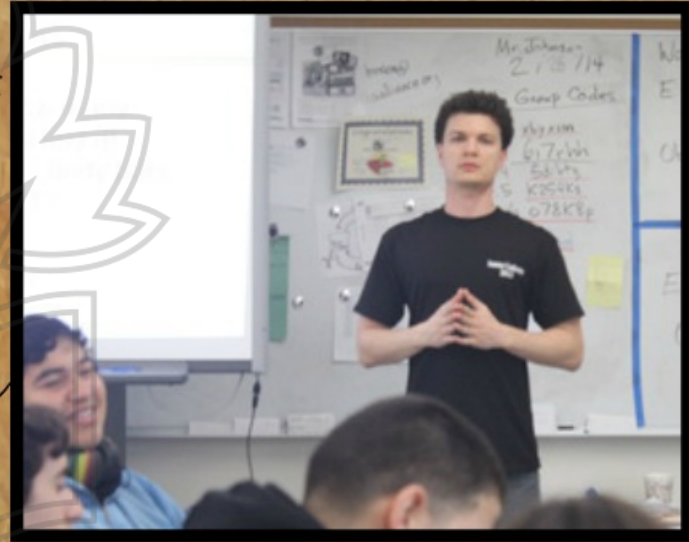

[Top left] Students in Ms. Brown's class take notes on their iPads and work together on classwork.
 [Top right] Ms. Song gives points for students who participate in discussions.
 [Bottom left] Jeremy Melendez and Maria Vargas enjoy English with Ms. Song.

History Department

History is more than a subject; it is a story waiting to be told everyday in class. Unlike math or English, history rarely changes. However, students in Mr. Bartlett and Mr. Johnson's classes are always able to say what they think. Through debates and discussions about politics and other countries, students can see life through the shoes of others.

"History is something that even though it cannot be changed, it can be made."

-Mr. Johnson

"I have always had a fascination with maps, traveling, and learning.

History is power and can empower us to be proud of where we are going."

- Mr. Bartlett

[Top] Joshua Franco and Carolina Perez work on a group project for US History.

[Center] Mr. Johnson's World History students pay attention to lectures before working on classwork.

[Bottom] Arturo Montes and Pedro Gonzales work together on a Do Now about individual freedom.

Math Department

Whether they are teaching new formulas or reviewing basic skills, the math teachers at Tenn Tech challenge students with rigorous real-world problems to help them succeed wherever they go.

Even though math is a subject with which many students have a love-hate relationship, the math department works hard everyday to make it easy and even fun!

[Below] Maria Vargas shows her classmates how to calculate solutions to classwork problems.

[Above] Monica Valdez and Michael Flores work hard to study for an upcoming Pre Calculus test.

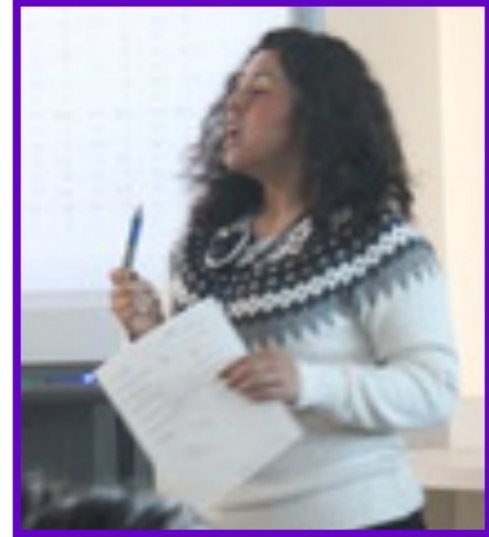

"I look at math as a social justice issue. It is every student's right to be given the opportunity to succeed in math class. Those who seize that opportunity will be the ones with greater education and career options than those who do not."

Ms. Hahn

Ms. Mejia

"I love mathematics as a universal language that allows the world to communicate through the use of patterns, symbols, statements, and logic. I welcome challenges and make no excuses. Math will always challenge me and keep my mind in motion."

Ms. Cuervo

"I like math because it is logical, and I love being challenged. I assist my students in solving problems and finding a common situation not only in math, but in life as well"

Dr. Kang

"I love math because it is a fundamental of science and engineering. We learn how to justify logically. I became a math teacher to work with high school students. My students have great potential, and I want to showcase that."

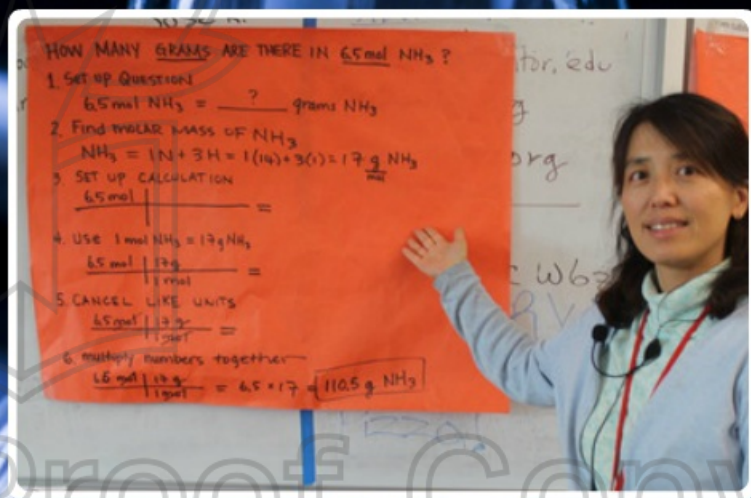

Science Department

While science is often a mysterious and challenging subject, it is not impossible to learn, especially with the knowledgeable teachers at Tenn Tech. In science, students can learn what everything is made up of, and even different ways to create power and energy for the world in which they live. From building solar panels to dissecting pigs, Tenn Tech students are exposed to science in many hands-on and technology-driven ways.

ELECTIVES DEPARTMENT

Aside from taking core classes like math, history, English, and science, Tenn Tech students can take elective classes to fulfill graduation credits and explore other non-traditional subjects. This year, Mr. Chan taught Weight Training and Kinesiology, Ms. Soto Spanish and AP Spanish Literature, and Ms. Dang Film, Digital Design, and Creative Writing. These teachers make school more enjoyable and take joy in their work. Through these classes and with these teachers, students are able to test their strength and creativity outside of regular classes.

Write a Review

Tenn Tech students are always being put to the test. Whether it's benchmarks, exit slips, or every day homework, Tenn Tech students strive for their best no matter what!

Average Rating: ★ ★ ★ ★ ★

Andre consistently grasps the scientific concepts readily and easily applies them to problem solving. He makes connections of new learning with prior knowledge effortlessly, and he shows great promise and enthusiasm for a scientific/engineering career!

By: Mrs. Cartland

Miguel has been a joy to have in class. Aside from his hard work and dedication, one thing that was very admirable about him was his ability to seek help and ask questions!

By: Ms. Song

Daisy consistently comes to class with a positive attitude and smile on her face. She is always an active participant in class discussions eager to learn and grow as an individual. I have no doubt Daisy will be successful in whatever she chooses to do in the future.

Chuancey Charles #81 and Roberto Angulo #88 prepare to stop the next play.

This year, selected gentlemen from Tenn Tech got the chance to be a part of the new Sotomayor football team! Varsity's first year did better than expected considering that all the players worked seven months to be able to star in their Friday Night Lights! Every Friday afternoon was all about the wolves, and the crowd went wild for every touchdown!

"I am very grateful for the kids that came out for football and stuck with it. Every single one of them means the world to me and I wish them the best of luck in the future. I will never forget any of you."

The girls' basketball team had an amazing season driven by unity and endurance from countless hours of training. Win or lose, they left every game with pride and ambition to achieve greatness. Their hard work paid off when they made it to playoffs against still competition. Girls' basketball can only go up from here, as long as they have a strong bond and energy.

Soccer is a world renown sport and one of the most beloved at Tennenbaum Tech. Each of our soccer players dreams about playing in a huge stadium with millions of fans watching them. Through continuous practice and exposure to competitive games, hopefully, one day, they will get to experience playing in front of thousands, maybe millions of fans!

The varsity girls soccer team had such a great season this year! According to varsity team captain, Karina Pineda, "We all love [soccer], and we've shown other teams that doubted us that we are better in every single way. I am glad to be the varsity captain of this team, not only because we are like sisters, but also because we have all learned how to be leaders individually." The girls reached very far in the season thanks to their coach, Tina Bright, who has played soccer for 23 years of her life. Coach Tina always reminds her team: "Practice as if you're playing in a game. How you practice is how you play." She also said her ultimate achievement would be to coach the Sotomayor team to win League Champions. The girls soccer team has overcome so many roadblocks and doubts along the way, but they qualified for playoffs this past season; they sure did prove everyone wrong! Go Wolves!

TRACK & FIELD

78

Being a part of Sotomayor's Track and Field team, Tennenbaum Tech contributed many lightning-speed sprinters, steadfast long distance runners, and strong throwers and shot putters. Through long days of practice and supportive coaches and teammates, these athletes have experienced a productive and fulfilling season.

WORDS OF WISDOM FROM TENN TECH'S TRACK ATHLETES

"Even if you are on the right track, you will get run over if you just sit there."

-Estrella Chun

"Success is not given it is earned. on the track, on the field, and in the Gym. with blood, sweat, and tears."

-Christian Duran

"Every once in a while I think, 'What am I doing out here running, busting myself up? Life could be so much easier. The other guys are out having fun, doing other things, why not me.'"

-Robert Mellado

"The body achieves what the mind believes."

-Arion Wingfield

- Yeimy Maldonado #3

Although Tennenbaum Tech is only one fifth of the Sotomayor Varsity and JV softball teams, the team has grown over the years to become exceptionally skillful and sharp. The girls continue to train and flourish into the team they dream to become. Despite the differences and the obstacles they face everyday, they still come together not just as a team, but as a family.

Tennenbaum Tech has six talented, gifted, and deft baseball players. This is only the third year the school has had a baseball team, and these players have risen from the ashes. Each player steps on the field with the mentality of winning, and plays with heart. Our players have proven that nothing is impossible, and never underestimate a team. We are proud of the guys, and may they continue to grow! They are the mighty wolves.

WISE

UP

Like

Sometimes, the need to create comes from the need to inspire and help others learn. That's just what president and founder of "Wise Up" Juan Carbajal did: he took his experiences from a summer internship to create this club because he felt the information he learned would affect students at Tenn Tech in a way just as it did for him.

Juan, the founder and president of Tenn Tech's Wise Up, expressed a great sense of pride and dedication towards recruiting others for this club. Who is eligible to join Wise Up? Juan explained, "Any 9th, 10th, 11th, or 12th graders are eligible to join. It's open to anyone who is interested in making a difference." He claimed that students can learn a few things such as how to write college essays, how to be an effective leader, and how to apply to college for undocumented students. So if this club sounds like something you're interested in, it's never too late to make a difference for yourself and your community!

STL Student Technology Leaders

If there's something strange with the technology in your classes, who would you call? Tenn Tech's STLs! Led by Ms. Dang and Mr. Kim as facilitators and Noble Stephenson as president, they have assisted with iPad deployment this year along with evaluating Biology and Chemistry projects. They also spearheaded the College and Career Projects for 9th and 10th grade advisories. Keep an eye out for them next year because they will bring much more to Tenn Tech than ever before!

Under the guidance of Mr. Bartlett and Mr. Johnson, the Tenn Tech chapter of Junior State of America have dedicated themselves to learning more about current events and taking action on issues as politics, education, and foreign affairs. In addition to their lives in school, they also interact and discuss their interests with students outside of Tenn Tech. From hosting fundraisers to participating in regional conferences, these students are striving not only to become the next great debaters but also to informing and inspiring their peers to do the same.

Congratulations to the class of 2014!

The class of 2014 will always hold a special place in our hearts. We have been able to witness all of you mature into individuals ready to tackle college and/or embark into the work force. Tennenbaum Tech is proud to have played a role in helping create the future by working with such a group of young leaders.

It has been a great ride and honor to have been able to work with each and every one of you as you continue your journey. As you head out into the world we challenge you to be fearless and remember that no matter what you choose, all paths lead to self-discovery.

The coming years will bring many challenges, but the class of 2014 will be ready to meet them. You guys will be tomorrow's leaders and we are confident of your ability to accomplish your goals.

It is always with a mixture of emotions that we say farewell to you guys. We wish each and every one of you the best as your adventure begins.

Here's to the class of 2014!

Love,

Yesenia Nungaray
Evelin Reyes
Carmen Zaldana

To all my seniors,

It has been an honor being a part of your last year of high school. I am excited for your futures and look forward to seeing you continue your education. This next chapter will undoubtedly have its challenges but in those difficult times, I'd like you to remember this from Colin Powell, who spoke at my high school commencement: "All my life I've been a 'C' student, but through hard work and tenacity I was able to become the Secretary of State. It was only once I was in college when I found something that I liked. And I not only liked it, but I was pretty good at it. That's what you really have to look for in life: something that you like and something that you think you're pretty good at. And if you can put those two things together, then you're on the right track, and just drive on."

-Ms. Hahn

"You can't be that kid on top of the water slide overthinking it. You have to go down the chute."

Tina Fey

No matter where you go or what you do, Tenn Tech will always be cheering you on!

Best wishes,
Ms. Dang

"Remember when the days were long
And rolled beneath a deep blue sky
Didn't have a care in the world
With mommy and daddy standing by
But "happily ever after" fails
And we've been poisoned by these fairy tales
The lawyers dwell on small details
Since daddy had to fly
But I know a place where we can go
That's still untouched by men
We'll sit and watch the clouds roll by
And the tall grass wave in the wind
You can lay your head back on the ground
And let your hair fall all around me
Offer up your best defense
But this is the end

This is the end of the innocence"
-Don Henley's "The End of Innocence"

-Mr. Galvan

Congratulations, class of 2014!

I am so excited for all of you as you leave the nest of Tennenbaum! It has been a pleasure working with all of you this year and seeing each and every one of you grow.

Remember to always strive for success, and ALWAYS continue to challenge yourself!

Success is never final;
failure is never fatal.

It's courage that counts."

- John Wooden

Class of 2014,

As you go from this place, may you meet only with good fortune, and may you continue to develop those qualities that will lead you to great success in the future. Best wishes!

Dear New Graduates: -Ms. Brown

It has been my privilege to host a senior advisory class this year. I have enjoyed getting to know you and your dreams, hopes and apprehensions during this time of great excitement and change as you embark on a new chapter of your lives. Best wishes to you; may you dream big, grow strong, and be steadfast and true to yourself.

-Mrs. Cartland
"Dream big. It's the first step to success. Just like that saying, shoot for the moon, even if you miss you'll land among the stars. So aim high, aim higher than you ever thought you could because if it just wasn't meant to be, you'll still shine."

- Author Unknown

Good luck in all your future endeavors. Do NOT hesitate to ask for help, and help others when others need your help. Don't be scared.

Dr. Kang

SENIORS,

TEN YEARS FROM NOW, INSTAGRAM WILL BE HISTORY, AND JUSTIN BIEBER WILL BE 30. THE TIME IS TICKING, STARTING NOW...MAKE IT COUNT...

-MR. JOHNSON

IF YOU WANT TO SUCCEED IN LIFE... BE THE BEST YOU CAN BE OR JUST BE A BIOLOGY MAJOR LIKE I WAS!

CONGRATUALIONS AND HOPEFULLY THE BEST THINGS IN LIFE WILL BE RIGHT AROUND THE CORNER FOR YOU!"

-MR. KIM

"Judge me not on my successes, judge me by how many times I fell down and got back up"

-Nelson Mandela

Seniors, it's been an honor to teach you these past two years. Stay in touch!

-Mr. Bartlett

Best of luck to you all on your road to success and self-fulfillment. Work hard, stay focused, and never stop asking questions. Follow your dreams; good things will come if you make it happen.

-Ms. Siwek

YEARBOOK TEAM

Through a handful of students' hard work and Ms. Dang and Ms. Song's leadership, this year's yearbook was made with immeasurable stress yet indescribable pride. In spite of a few mishaps, they persevered to make sure students have lasting memories of this year. Special thanks to other students, teachers, and staff for sharing their memories of this year through photos, interviews, and time in creating this piece of Tenn Tech history!
